Appendix I – Notice of Intent to provide oral traditional evidence

To assist those Intervenors providing oral traditional evidence, the Board recommends that this evidence focus on how the Project would impact their community's interests and rights. In addition, the Board does not consider the following types of information to be oral traditional evidence, and should not be included in any oral presentation:

- Technical and scientific information.
- Opinions, views, information, or perspectives of others, whether obtained from news clippings, personal discussions, or written materials.
- Detailed views on the decisions the Board should make and opinions about the Project.
- Recommendations to the Board on whether or not to approve the Project or the terms and conditions that should be applied if the Project were to proceed.
- Questions that require an answer from either the company or the Board, or rhetorical questions.

The Board requires the following information from those Aboriginal Intervenors planning to present oral traditional evidence:

- Name of Intervenor.
- Name of presenter(s).
- Confirmation that the evidence to be provided aligns with the description of oral traditional evidence as explained above
- Any other information the Board should consider in relation to the notice to present oral traditional evidence.

This information must be provided using the attached form and appropriately filed with the Board using the Participation Portal.

A Process Advisor will contact all groups who provide a Notice of Intent to provide oral traditional evidence. A Procedural Directive with details on the process and schedule will be provided after all groups have been contacted and logistical arrangements are made.
